

**G**KN Aerospace recognizes the need to establish and maintain excellent performance standards for the support of Airlines operating Saab aircraft with GKN ATS windows. From the beginning of the Saab 340 program and on through the Saab 2000, we cooperate with Saab and the Aircraft Operators to ensure compliance with such performance standards. Our support covers all activities related to service, training, data and spares to ensure that the Saab and Aircraft Operators will be able to economically operate, use and maintain our products. We believe that widespread availability backed by full AOG capability provides the best possible support to Saab Aircraft Operators. Our windows are available on a world-wide basis from Spares Support stores.
